

## TCM Forklift Parts

TCM Forklift Parts - In the international industry of material handling, forklifts play a major role for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

In the year 1949, founded by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Presently the company is simply referred to as TCM Corporation. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the industry. TCM began constructing lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly manufactures numerous models of industrial forklifts with more than 50 years of accumulated expertise and technology, making their products used and recognized all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading company.
