

## Meritor Part

Meritor Part - The Meritor Company is a leading global supplier built upon one hundred years of custom of quality and service. Meritor specializes in integrated systems along with various modules and components to the original equipment manufacturers and aftermarket equipment within the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage within the international operations. The business values all of their customers and wants to guarantee their success while anticipating their various requirements. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor encourages collaboration and innovation among a team of knowledgeable experts.

Meritor strongly believes in just employing future focused staff. These top-caliber workers could rapidly adapt to changing environments and freely demonstrate the level of commitment and performance required to be able to attain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their staff different opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise drivelines, axles, braking and suspension systems utilized for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of all their international engineering personnel.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located around the globe in 19 nations and in 5 different continents.

They have their supplier network which is particularly situated so as to support the development of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is even included transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
