

Clark Forklift Part

Clark Forklift Parts - Currently, there are at least 350,000 Clark lift trucks performing globally, and in excess of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique designs of forklifts, with parts covering more than 120,000 specialized items for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really outstanding international support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a unrelenting mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly facilities for the reason that this method is extremely economical and enables minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The new value engineering agenda combines innovative product growth and delivers superior client support and service within the industry.
