

Spreader Bar for Forklifts

Spreader Bar for Forklifts - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader maker around the world. They have been a devoted maker of spreaders for different applications such as the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of using all of the latest CAD systems and FEM tools. The ELME company currently employs over 125 employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the world.

The ELME product range offers spreaders intended for several trailer and container handling operations. A few of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes and a huge variety of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by utilizing quality parts in order to guarantee dependability and top standards. Major characteristics of ELME include design simplicity, market feedback and inventive modular spreader concept.
